JURY REPORT

The Jury of FIP Specialised World Stamp Championship Exhibition HELVETIA 2022 has completed judging. We are pleased to present this report.

The Jury judged a total of 430 exhibits. We have found that the quality of exhibits shown at HELVETIA 2022 is very high. We awarded 31 Large Gold medals and 107 Gold medals. We are also pleased to see many exhibits that have made improvements since they were last shown in previous stamp exhibitions.

6 exhibits were transferred to a different exhibit class to ensure they achieved a better award. Unfortunately, 12 exhibits did not arrive and 3 exhibits were out of competition. Therefore 21 exhibits could not be judged. 4 exhibits were shown as photocopies and judged but will not be recorded in the FIP awards list.

The Jury would like to thank the HELVETIA 2022 Organising Committee, FIP Consultant and National Commissioners for their efficiency and hard work. We are grateful for Court of Honour and FIP Grand Prix Club participants bringing us wonderful exhibits, which created enormous interest among the philatelists as well as all other visitors.

Finally, we wish to thank the overwhelming hospitality and friendship of the HELVETIA 2022 volunteers and the facilities and support provided by the Organizing Committee.

On behalf of the HELVETIA 2022 Jury. Lugano, 20 May 2022.

HELVETIA 2022 EXPERT GROUP REPORT

The Expert Group of HELVETIA 2022 inspected as many exhibits as possible in each competitive class. Dubious items reported by judging teams were checked.

As a result, a total of 53 items were removed from the frames for closer examination and the recommendations of the Expert Group were as follow:

No action required	12 items
Has to be certified	32 items
Do not exhibit again	17 items
Improve description	2 items

The reports of the items examined together with illustrations in duplicate were handed over personally to the National Commissioners concerned for onward transmission to respective exhibitors and National Federations. This would ensure that the decision had been properly conveyed. Copies of the same documents in colour were retained for FIP records.

The Expert Group, consisting of Jean-François Brun, Till Neumann and Richard Gratton would like to thank the judging teams and the National Commissioners for their co-operation as well as the Organizing Committee for the excellent facilities for the smooth working of our group.
